

## Exchange Notice 50

### Power NL - Power BE

## APX Power NL Daylight saving time

### Sunday 25th October 2015: 03:00 AM

On Sunday 25th October 2015 at 3:00 AM the clock time will change to 2:00 AM, due to the time change for wintertime.

This situation will affect the manner in which orders are created during the summer-winter time change. The orders screen is already equipped to handle the time-change as it consists of 25 hours. This implies that orders meant for the "second" third hour, after the time-change, should be placed in the field "hour four" of the orders screen and so on. As a result, orders for hour 24 will then be placed in the field "hour 25". This is further specified in the following schedule:

Hour	Clock time
00 – 01	00:00 - 01:00
01 – 02	01:00 - 02:00
02 – 03	02:00 - 03:00
03 – 04	02:00 - 03:00
04 – 05	03:00 - 04:00
....	....
....	....
22 – 23	21:00 - 22:00
23 – 24	22:00 - 23:00
24 – 25	23:00 - 24:00

Please note that this situation applies for the Belpex Belgian Power Day Ahead, Power NL Day Ahead and the Belpex Power Intraday, Power NL Intraday Markets.
